

ARE YOU PREPARED?

Do you know your risks when it comes to intentional or natural disasters?

Do you have an emergency kit for yourself, your workers, your animals?

Do you know your neighbors or organizations who can help you in an emergency?

Do you have emergency and evacuation plans?

EMERGENCY & EVACUATION PLAN

- ☑ Identify travel routes least likely blocked by flood, fire, or other disaster
- ☑ Identify and maintain list of primary and secondary on-farm and off-site holding areas for animals
- ☑ Designate paths for first responder access
- ☑ Know how to address small emergencies while waiting for first responders
- ☑ Ensure all vehicles and trailers are in working condition
- ☑ Ensure halters, ropes, leashes, etc. are accessible for each animal
- ☑ Post phone numbers for neighbors and volunteer groups

PRACTICE, PRACTICE, PRACTICE!

WIFSS is an Institute under:

Partners

Rural Disaster Preparedness Consortium (RDPC)

Department of Homeland Security (DHS)

Food and Drug Administration (FDA)

The Food and Agriculture Protection Training Consortium (FAPTC)

California Veterinary Medical Association (CVMA)

All Hazards Approach to Animals in Disaster and Food Security Preparedness

FOOD SECURITY DURING DISASTERS

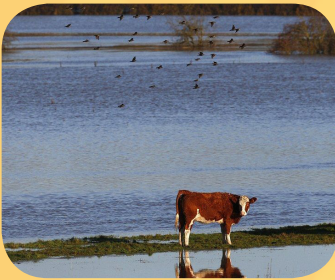

Food Security Is:

The availability of safe food

Food Security Involves:

Planning for future disruptions to food supplies due to drought, flood, fuel / power shortages, and intentional harm

Animal welfare is integral to protecting livelihoods and food security from disasters

WIFSS

Bringing people together to prevent, detect, respond to and recover from intentional and natural disasters that impact food security for our communities

WIFSS TRAINING COURSES

SIX COURSES ON AGROTERRORISM FOR FIRST RESPONDERS

Understanding the Dangers of Agroterrorism

Preparedness for Agroterrorism and Food Systems' Disasters

Detection and Diagnosis – Strategies and Technologies

National Incident Management System, Team Building and Risk Communication

Frontline Response to Agroterrorism and Food Systems' Disasters

Planning and Implementing Recovery

THREE COURSES ADDRESSING ALL-HAZARD APPROACHES TO EMERGENCIES THAT AFFECT OR INVOLVE ANIMALS

All Hazards Planning for Managing Animal- and-Food-Related Emergencies in Rural Communities

Rural Community Preparedness: All Hazards Awareness and Planning for Disasters that Include Animals

Principles of Preparedness, Detection, Response and Recovery for Agroterrorism and Food Systems' Disasters

Secure, safe food supplies are critical for healthy people, healthy animals, economically viable communities, and prevention of catastrophic economic consequences
